

LOCAL KNOWLEDGE

Welcome to Greenwich Studios! To help you get your bearings a bit, we've put together a little dossier to point you in the direction of our favourite amenities, coffee shops, eateries, and bars for a post-wrap beverage.

We are working towards being the very first carbon neutral and environmentally friendly film and TV studios in London, so we have marked the lowest impact businesses (in line with Albert certification). As we are working towards being sustainable, the kitchen taps have been fitted with pure water filters, eradicating the need for bottled water...a great way to save the pennies as well as the polar bears!

Please note also that the large silver bin in the green room is for dry recycling and a general waste bin can be found under the sink.

Thank you and have an awesome shoot!
